Is the Book Worth Reading?

You are certainly wrong in thinking of DotCom Secrets as a mere new addition to the plethora of Internet marketing guides already available. This dotcom secrets book is loaded with valuable information that Russell and his team have gathered over the course of his 10+ years of a successful Internet marketing career.

This book is one of a handful of guides that offer readers practical advice from the very first chapter they can implement in their business to make improvements that they once believed would be impossible to achieve.

This book consists of strategies that have proven their worth in a real-world scenario and have already helped hundreds or even thousands of other Internet marketers to achieve sustainable results from their existing business(es). As you go through the chapters and start implementing steps tedious but easy to understand, you will notice how they will completely revolutionize the way you operate your business.

The whole point of doing business at the end of the day is to give customers more value. The good news is that the growth strategies offered in DotCom Secrets by Russell Brunson, will always work because they have stood the test of time. Business growth is one of the marketing activities that many try, but most fail at.

The book offers tried and tested growth formula tactics to implement. It does well to bear in mind the importance of having a solid value base to offer your customers without which it is impossible to grow any business. As it takes some time to learn the tricks of the trade, it is a good idea to take the advice of an expert guide who has a proven track record of growing successful online businesses. It offers a digital conversion strategy that shows you the right way to carry out A/B testing and how to create landing pages etc.

The book is divided into five sections that explain the marketing process step-by-step.

1. Ladders and Funnels

In this section, Russell Brunson describes a value ladder, which is a visual map of all the services and products your business offers. Basically, it helps to describe your price catalog and shows you the best way to start your sales funnels.

2. Communication Funnels

Here he explains how to establish a close connection with potential customers by using the right words in your emails and giving them an attractive character to relate to.

3. Funnelology

In this section, you are taught how to create and implement effective funnels and the building blocks required for excellent results. He also provides [in-depth training on Funnel Hacks](#). The essential elements of a successful sales funnel campaign and how to create profitability faster.

4. Funnels and Scripts

Here Russel provides you with some of the top sales funnels he has personally used to generate millions of dollars. He does a great job at explaining the psychology behind the sales funnel and provides you with access to great templates to incorporate into your own online business. He also explains the importance of understanding how to structure the perfect OTO (One Time Offer).

5. ClickFunnels

In this last section, everything you have learned is combined, and you are introduced to ClickFunnels software - the solution to all your problems. This is the cream of the crop software that, over the years, has produced multiple 7-figure earners for Russell. Used in conjunction with other top-tech software, it can help you build your own sustainable online business.

No matter where your online business is at if you want time tested, proven strategies, and tricks to help grow your business into a profitable and sustainable enterprise, this book will give you loads of valuable information and how to put it into practice.

Pros

- The best book for reference guide
- Easy to read, understand and implement the techniques
- Teaches a way to optimize your profits to beat out the competition
- The techniques to make money from funnels
- Learn the entire sales process from beginning to end

Cons

- A few upselling of clickfunnels software
- It takes time to master the strategies and implement the funnels properly
- Need to be ready to step outside of your comfort zone

DotCom Secrets Price

The paperback edition of the book is currently retails on Amazon for \$11.98. The book is offered free if ordered directly from Russell Brunson's website. (But, you will have to pay for shipping and handling fees cost around \$7.95.) In my opinion it's well worth it.

Conclusion

I think this book is really worth it. You just spend a little on shipping and handling, but you get so much value out of it that you do not even have to question spending money to get it delivered to you.

If you are serious about starting an online business, your business growth at the moment, or just learn about the importance of the channel and sales strategies for living, then this book is 100% worth it for you!

There is no such thing that Free Dotcom Secrets PDF - just pay shipping and handling to get it sent to you (or use the dotcom secrets audiobook or dotcom secrets ebook, it does not really matter).
